Nuno Lacerda Lopes is an architect and professor at the Faculty of Architecture of the University of Porto, Portugal. Along his architectural works, he also design furniture, products and equipment, and has gained recognition for his

innovative and entrepreneurial approach to design. His furniture designs have been exhibited in several national and international exhibitions and have been featured in numerous publications. He has received several awards for his work.

Nuno Lacerda Lopes

“Designing is the exercising of critical consciousness guided by a strategy of thought and action in a certain context.”

He demonstrated his ability to transform and create new spaces and desires. His furniture designs showcase his unique approach to form and function, blending contemporary and traditional elements to create pieces that are both aesthetically pleasing and functional. With his keen eye for detail and passion for innovation, he has established himself as a prominent figure in the world of design.

Sometimes all we need is to just rest our eyes, relax our mind.
Not everything is Art, not everything is a shout of Art.
Sometimes all it takes is organization, a unique geometry and true intent, that which makes us be.

Elegant Interior Design

Luxury

Drawing was a tool, a vehicle, an ongoing process of discovery, a reason to depart, to reach a collective ideal of happiness, of peace and sociability.

ELO, bed

Elegance

It is in us that we find the answers, but it is mostly outside of us, in the rational and emotive places, where we built the right questions that legitimize and justify the creation. creating, conceiving, designing and above all questioning... a desire for intelligence. A mystery!

It is therefore natural that the drawings reflect that freedom, that understanding, and that some pleasure, some humor, some history, smiles and invocations...

...negligences, feelings and also mere impressions taken seriously spill over. Written texts where geometry is the spoken word, is the meeting point.
